MAY 2, 1994

Dear Mr Weisberg,

I have been an avid student of the murder of John F. Kennedy since the very day it occurred (when I was 18).

In the course of the last 30 years, I have read every scrap of paper, book and article I could lay my hands on regarding the case (including the 26 volumes).

I own copies of all your books, including the recently published "Case Open" about Mr Posner's book.

To me, the J.F.K. murder let "bats out of the belfry" on this country that are still flying loose. That case will always be open and the truth certainly does matter.

I noticed on "Case Open" that you will have another new book coming out called "Never Again"

May I politely ask when your readers may expect to see your next book in the stores?

Thank you for your kind attention. My hat is off to you for your tenacity and your contributions to the search for truth

Yours very truly,

Donald Adair

P.S. I enclose a stamped envelope for the convenience of your reply.
